

## *TAS Series* **Power Steering Gears**

The TAS Series Power Steering Gear from TRW provides power steering with strength and performance for the long haul — engineered for medium and heavy duty vehicles operating on and off the highway. Drawing on TRW's years as an industry leader in innovation, TAS gears provide superior torque output and performance while also maintaining responsive handling and positive steering control.

- » **Available in six different models to meet steering system torque demands**
- » **Gears are designed to meet the needs of Class 5-8 heavy duty vehicles**
- » **Rotary valve design is expertly tuned for steering feel and lower operating temperatures**
- » **Automatic poppets offer ease of installation and a standard automatic bleed system to improve steering performance and increase steering system life**

**Drive with quality. Drive with reliability. Drive with TRW.**

TRW understands a heavy duty vehicle only runs as smoothly as its key components. That's why genuine TRW Heavy Duty Aftermarket products are engineered for optimal performance, designed to fit precisely and proven to operate with OEM systems. Plus, each product comes with ongoing support backed by one of the most respected, trustworthy names in the industry. The TRW Heavy Duty Aftermarket line offers a maximum return on your investment to keep your vehicle, and your business, on the road.
